**HOUSTON (November 5, 2021)** – The vast array of large-sized dogs listed below have collectively spent **463 days** eagerly waiting for their forever homes. This group of fun-loving canines are young, young-at-heart or have a very unique look, like 10 year-old Kendal. While these beautiful pets come in different shapes, sizes and personalities, they ALL have the potential to steal someone’s heart. Their special \$25 adoption package includes a veterinary exam, microchip, spay/neuter surgery, free post-adoption exam at any VCA Animal Hospital and a free sample bag of Hill’s Science Diet. Want to see more large dogs? Visit [www.houstonspca.org](http://www.houstonspca.org).
